

## **2020-2021 NWEA ASSESSMENT RESULTS**

Sacred Heart uses NWEA data as one method to determine the learning needs of classes and individual students. Knowing that all students grow at different rates, we strive to meet the current needs of each individual learner.

**Percentage of Sacred Heart students (grades K-8) who scored at or above grade level norm:**

	<b>2019-20*</b>	<b>2020-21</b>
<b>MATH</b>	66%	68%
<b>READING</b>	64%	65%
<b>LANGUAGE</b>	66%	52%
<b>SCIENCE</b>	71%	73%

***Students at or above grade level norm:*** This gives the number of students who scored at the 50<sup>th</sup> percentile or higher on the NWEA test. The 50<sup>th</sup> percentile is considered the “norm” for a grade level.

***\*Due to the COVID19 pandemic, Spring testing was not completed. Percentile is reflective of Fall testing 2019.***
