

### **2021-2022 NWEA ASSESSMENT RESULTS**

NWEA test data is one method Sacred Heart uses to keep track of progress and growth in basic skills for classes and individual students. Test data shows where a student's strengths are and if additional help is needed in any specific areas. Sacred Heart School strives to meet the current needs of each individual learner.

**Percentage of Sacred Heart students (grades K-8) who scored at or above grade level norm:**

	2020-21	2021-22
<b>MATH</b>	54%	56%
<b>READING</b>	52%	49%
<b>LANGUAGE</b>	57%	53%
<b>SCIENCE</b>	57%	59%

***Students at or above grade level norm:*** This gives the number of students who scored at the 50<sup>th</sup> percentile or higher on the NWEA test. The 50<sup>th</sup> percentile is considered the "norm" for a grade level.
